## Data Driven. Client Focused. Flexible.

ZRG Partners, LLC is a progressive mid-sized global executive search firm that uses a proven, data-driven approach. We were founded on the principle that well-developed, actionable information and process excellence are the cornerstones of a truly successful executive search process. With this foundation mindset, a nimble structure and minimal “hands-off”, ZRG Partners provides a unique value proposition to its clients.

ZRG Partners has been serving clients for over a decade across the Americas, Asia-Pacific and Europe. Our fact-based approach helps clients make better decisions about their most valuable resource - their people.

### We do this through our service delivery model featuring:

Z Score adds the “Ph.D.” view of the candidates into the equation to ensure that all candidates are a strong fit for the specific role and the company culture. Just as our clients operate their businesses using strong metrics, the ZRG Z Score solution brings strong metrics to more effective talent selection.

## Industrial Practice

At ZRG Partners, our recent growth has been partly fueled by a significant broadening of our product offering in the industrial sector. This is due largely to the 2014 acquisition of New Directions Search, an industrial sector search firm founded in 1980 based in Chicago. Capitalizing on our flexibility as a mid-sized firm—with a strong international reach—ZRG Partners has now established even deeper networks within the industrial sector to meet the high-demand for top talent globally.

The Industrial marketplace continues to experience rapid growth on a global basis. This transformation is fueled by advancements in technology, innovation, emerging markets and complex supply chains reaching customers worldwide. With this expansion, the need for human capital talent has never been greater.

Our expertise spans several key areas including:

- ▶ Aerospace and Defense
- ▶ Automotive
- ▶ Basic Materials (Minerals and Mining)
- ▶ Chemicals
- ▶ Diversified Manufacturing
- ▶ Energy
- ▶ Industrial Services (Construction, Infrastructure and Services)
- ▶ Logistics and Transportation
